

TIMBERLINE™

WOODGRAIN HDPE SHEET

Patent Pending

NATURAL BEAUTY. UNNATURAL VERSATILITY.

Accomplish the things that wood can do and explore the things it can't. Get the HDPE sheet that offers the most authentic, high-end look and texture of wood...and set your imagination free.

TimberLine™ captures the eye with embossed woodgrain and unique coloring sheet to sheet, opening up new potential for cabinetry, kitchens, landscape architecture, marine use and other applications. Delivering the high-end, welcoming atmosphere normally achieved with wood, and retaining its natural color and wood texture.

Through technologies that offer the highest level of performance and durability, TimberLine is low maintenance and worry-free. Designed with sustainability in mind, it offers unmatched versatility in exploring design possibilities, and even the flexibility to be heated and shaped for custom projects. Now you can transform any outdoor environment into a beautiful space for a lifetime of enjoyment.

Authentic Wood Look

Beauty without the maintenance & upkeep

Create With Style

Woodgrain texture with natural color options & unique streak variegation

Explore Your Creativity

With unmatched design versatility in sheet dimensions rather than lumber sizes

Easy to Shape

With its ability to be fabricated using standard woodworking tools

Enjoy Long-Lasting Performance

Superior weatherability, colorfastness & durability

VYCOM®

TIMBERLINE™

WOODGRAIN HDPE SHEET
